What is the Single Family Residential Property Owner Flood Relief Grant?

The Single Family Residential Property Owner Flood Relief Grant is a program administered by the Village of Harwood Heights to encourage homeowners to have a licensed plumbing contractor install overhead sewers, or flood control devices on their property.

Frequently asked questions:

How much is the grant and how does a homeowner apply?

Eligible single family residential homeowners can apply for up to \$1,500 in grant funds towards professionally installed flood control equipment on their property. The Village of Harwood Heights will pay the homeowner up to \$1,500 after all work is completed and approved by the village inspector. The plumbing contractor doing the works must be licensed in the village and permits must be issued to perform the work. After the completed work is inspected and approved by the village, the owner must submit an original receipt showing they paid for the work.

Where is the money coming from?

The Village of Harwood Heights will appropriate \$50,000 for the grant. This will allow the first 33 homeowners who apply to be eligible for \$1,500 on the flood control program for their home.

Can the money be used for replacement of sump pumps?

No, the grant money can only be used for new flood control devices being installed this year.

Who is eligible for the program?

Only owners of single family residential homes are eligible. Projects must be completed this fiscal year (May 1st, 2006 to April 30, 2007) to qualify. Previous projects are not eligible.

How do I find a licensed plumbing contractor to do the work?

Licensed plumbing contractors are listed in the yellow pages. Getting referrals from neighbors and friends is important. Be sure to get several estimates, and check references and licenses.

Will the Program be repeated next year?

There is no guarantee that the program will be repeated next year, funds must be set aside by the village board each year for this purpose.

How do I Apply?

Applications can be made when you or your licensed professional plumbing contractor comes in to apply for the permits to begin the work.. Application:

Name _____

Address _____

Phone number _____

Contractor Name _____

Address _____

Phone No, _____

Licensed in Village _____

Plumbing Contractors License _____

Estimate amount of project _____

Type of Project : (check one)

_____ Over head sewers
