INDEPENDENT AUDITORS' REPORT

To the Mayor and Board of Trustees
Village of Harwood Heights, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Harwood Heights, Illinois, as of and for the year ended April 30, 2014, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Village's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Police Pension Fund, which represents ninety-nine percent of the assets, net position and revenues of the fiduciary funds. Those statements were audited by an other auditor whose reports have been furnished to us, and, our opinion, insofar as it relates to the amounts included for the Police Pension Fund, is based solely on the report of the other auditor. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(Continued)

Auditors' Responsibility (Continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Harwood Heights, Illinois, as of April 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 13, the schedule of funding progress for the Illinois Municipal Retirement Fund historical data on page 68, Police Pension Fund historical data on page 67, other postemployment benefits data on page 69, and budgetary comparison schedules and notes to required supplementary information on pages 71 through 74 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

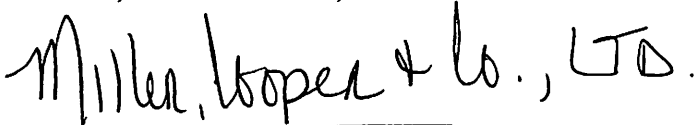

Our audit for the year ended April 30, 2014 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The other schedules listed in the table of contents in the introductory section, the supplementary information and other supplemental information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Other Information (Continued)

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended April 30, 2014.

The introductory sections and other supplemental information sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Village of Harwood Heights, Illinois
Management's Discussion and Analysis
April 30, 2014

The Village of Harwood Heights (the Village) Management's Discussion and Analysis (MD&A) is designed to assist the reader in focusing on significant financial issues, provide an overview of the Village's financial activity, identify changes in the Village's financial position, identify any material deviations from the approved appropriations, and identify individual fund issues or concerns. Please read the information presented here in conjunction with additional information furnished in the Village's audited financial statements and accompanying footnotes, which follow this narrative.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements of the Village of Harwood Heights focus on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major funds) allow the user to address relevant issues, broaden a basis for comparison, and enhance the Village's accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to emulate the corporate sector in that all governmental and business-type activities are consolidated into columns which add to a total for the Village. The focus of the Statement of Net Position is designed to be similar to the full accrual balance sheet for the Village and its governmental and business-type activities. This statement combines and consolidates the governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services.

The governmental activities reflect the Village's core services. Shared state revenues (income, use, and replacement taxes) and other tax revenue from sales (municipal and home rule), local utility, real estate transfer, etc., finance the majority of these services. The business-type activities reflect private sector type operations (water and sewer), where the fees for services typically are intended to cover all or most of the cost of operations, including depreciation.

Village of Harwood Heights, Illinois
Management's Discussion and Analysis
April 30, 2014

FUND FINANCIAL STATEMENTS

Traditional users of governmental financial statements will find the fund financial statements presentation to be more familiar. The focus is on major funds, rather than fund types. The Village uses fund accounting, like other state or local government entities. The Village has three groups of funds: governmental, proprietary, and fiduciary. Brief explanations of these funds are provided below.

Governmental Funds

The governmental major funds are presented on a sources and uses of current resources basis. This is the manner in which the budget is typically developed. The flow and availability of current resources is a clear and appropriate focus of any analysis of a government. Governmental funds are used to account for the general governmental revenues and expenditures of the Village. The General Fund is the main operating account of the Village and the largest of the governmental funds. Governmental funds use the flow of current financial resources measurement focus at the fund financial statement level. The current financial resources measurement focus uses the modified accrual basis of accounting. Therefore, following the balance sheet for the governmental funds is a reconciliation of the balance sheet to the statement of net position to calculate net position on the full accrual basis of accounting.

Proprietary Funds

The Proprietary Funds consist of enterprise and internal service funds. These funds comprise the business-type category reported in the government-wide statements. These funds account for business or service type operations of the Village that are similar to private sector operations in which costs are recovered as a user fee. The Village's only proprietary fund is the Water and Sewer Fund.

Fiduciary Funds

The Fiduciary Funds are excluded from the government-wide financial statements. While these funds represent trust or agency responsibilities of the Village, these assets are restricted in purpose and do not represent discretionary assets of the Village. Therefore, these assets are not presented as part of the government-wide financial statements. The Village's fiduciary funds are the Special Service Area Fund and the Police Pension Fund.

Village of Harwood Heights, Illinois
Management's Discussion and Analysis
April 30, 2014

Notes to the Financial Statements

The notes to the financial statements are intended to supplement the reader with additional information. The notes include information on significant accounting policies, explanations on the reconciliations of statements, investments, receivables, capital assets, debt, interfund balances, contingent liabilities, pensions and other information related to the Village's financial status. The information contained within the notes not only supplements financial statement information, but clarifies line-items that are part of the financial statements.

Other Supplemental Information

The supplemental information section includes detailed information as a context for understanding what the information in the financial statements and notes says about the Village's overall financial health. Required supplementary information can be found on pages 67 to 74 of this report.

Infrastructure Assets

The Village's largest group of assets consists of infrastructure assets and water and sewer systems (land, streets, storm sewers, etc.). This statement requires that these assets be valued and reported within the governmental column of the government-wide statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. The Village has chosen to depreciate assets over their useful lives. If a project is considered maintenance - a recurring cost that does not extend the asset's original useful life or expand its capacity - the cost of the project will be expensed. For example, the "overlay" of a street will be considered maintenance whereas a "rebuild" of a street will be capitalized.

GOVERNMENT-WIDE STATEMENTS

Statement of Net Position

Net position is defined as the amount by which assets exceed liabilities and deferred inflows of resources. Net position can be a useful indicator of a government's financial condition. As of April 30, 2014, assets exceeded liabilities by \$11.7 million. The following condensed Statement of Net Position compares the current and prior fiscal years.

A significant portion of the Village's net position, about 94%, reflects its investment in capital assets, net of depreciation (i.e., land, streets, storm sewers, water mains, buildings, and vehicles), less any related outstanding debt that was used to acquire those assets. The Village uses those capital assets to provide services to citizens; consequently, they are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, the resources required to repay that debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Percent of Governmental Activities Revenue by Category

Governmental Activities Revenue

Governmental activities revenue totaled approximately \$10.7 million, with taxes comprising 40% of total revenues for fiscal year 2014. State sales tax and home rule sales tax increased by approximately \$109,000 and were the two largest sources of revenue for the period at \$1,126,994 and \$954,501, respectively. The overall increase in sales taxes compared to fiscal year 2013 can be attributed to an upturn in our local economy. State income taxes, a State shared revenue, totaled \$969,371 for the fiscal year, a 25% increase from the previous year. Utility taxes generated \$456,456 in revenues and Village licenses and permit fees totaled \$395,766.

Village of Harwood Heights, Illinois
Management's Discussion and Analysis
April 30, 2014

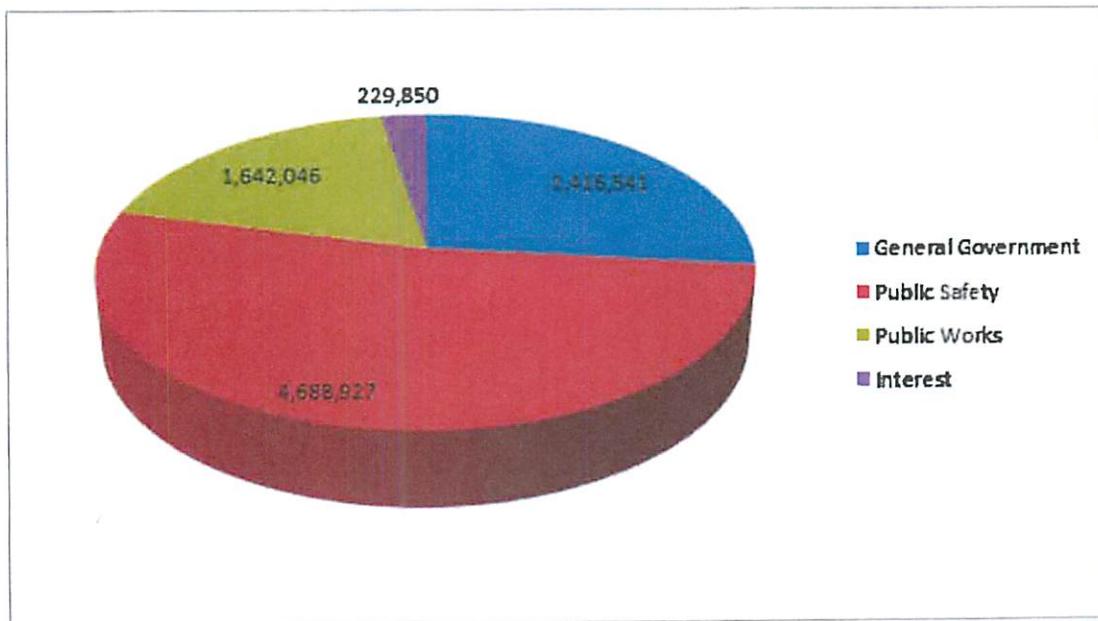

Business-Type Activity Revenue

The Village of Harwood Heights' only business-type activity is its Water and Sewer Department. Water service charges, sewer fees, and late payment penalties for Fiscal Year 2014 totaled \$1.86 million.

Revenues for water taps, meter sales, and miscellaneous revenues totaled \$18,625. Non-operating income of \$32,015 was produced by investment income and antenna leasing.

GOVERNMENT-WIDE EXPENSES

For the fiscal year ended April 30, 2014, expenses for all activities totaled \$10.96 million as compared to \$10.13 million in fiscal year ended April 30, 2013.

Refer to page 8 of the MD&A for the government-wide expenses related to the above graph.

Village of Harwood Heights, Illinois
Management's Discussion and Analysis
April 30, 2014

Governmental Activities Expenses

Governmental activities expended \$8.98 million in fiscal year ended April 30, 2014 as compared to \$8.3 million in the previous fiscal year. Public safety expenses of \$4.69 million comprised the largest expenditure and include police department operating expenses. General government expenses totaled \$2.42 million, and include general administration, law department, finance, building, recreational and cultural opportunities, and health. Public works related expenses totaled \$1.64 million.

Business-Type Activity Expenses

The Water and Sewer Department's commodities and operating expenses totaled \$1.98 million, which includes \$894,206 for water purchased and \$250,945 for sewer fees paid to the City of Chicago. Personnel services in the amount of \$455,438 were provided by public works and administration employees.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available at the end of the fiscal year. As of April 30, 2014, the governmental funds reported an ending fund balance of \$4.68 million.

General Fund Budgetary Highlights

It is the Village's policy to periodically review the appropriations; however, department heads are expected to limit their expenditures to their original appropriation amount and change expenditures between line items, if necessary. Over the course of fiscal year 2014, the Village was not required to amend its appropriation ordinance. General Fund revenue came in over budget by \$964,310, or approximately 13%, partly as a result of additional fine revenue from new technology. General Fund expenditures came in over budget by \$229,861, or approximately 3%. The following tables compare appropriated amounts and actual Fiscal Year 2014 General Fund revenues and expenditures.

Village of Harwood Heights, Illinois

For further information on capital assets, please refer to the Notes to the Financial Statements.

Debt Administration

As of April 30, 2014, the Village of Harwood Heights had two outstanding General Obligation Bond issues, in the amount of \$3.52 million and one outstanding installment note in the amount of \$989,000. The Village's debt is rated "AA Stable" by Standard and Poor's. More detailed information about the Village's long-term liabilities is presented in Note H to the financial statements.

Economic Factors and Next Year's Appropriation

The Village of Harwood Heights is limited in its ability to grow because it is surrounded by neighboring municipalities, including the City of Chicago. Thus, all growth must occur from within. The property tax revenue derived from the residential, commercial, and industrial properties is relatively stable. State income tax revenue and sales taxes have increased from the previous fiscal year and are expected to increase due to new economic development initiatives. Long-range goals include revitalization of the Village's commercial areas and attracting new businesses.

Requests for Information

This financial report is intended to provide our citizens, customers, investors, and creditors with general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. If you should have any questions or requests for additional financial information, please contact the Village of Harwood Heights Finance Department, 7300 West Wilson Avenue, Harwood Heights, Illinois 60706, telephone (708) 867-7200.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF ACTIVITIES
April 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 1,261,635
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense.	1,339,594
---	-----------

The issuance of long-term debt (e.g. bonds, compensated absences) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt, increases in compensated absences, and increases in accrued interest payable consume the current financial resources of governmental funds.	<u>(921,367)</u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Harwood Heights (Village) was incorporated on November 25, 1947, in Cook County, Illinois. The Village operates under the mayor-trustee form of government and provides the following services as authorized by its charter: police protection, highways and streets, sanitation, water and sewer, health and social services, culture and recreation, public improvements, planning and zoning, and general administrative services. The Village has adopted the provisions of a home-rule government body.

The financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the Village's significant accounting policies:

1. Reporting Entity

As defined by accounting principles generally accepted in the United States of America, the financial reporting entity consists of the primary government, as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

- a. Appointment of a voting majority of the component unit's board, and either (a) the ability to impose will by the primary government or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- b. Fiscal dependency on the primary government.

Based on the above criteria, the Village does not have any component units, and is not included as a component unit in any other governmental reporting entity.

2. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, 2) grants and contributions that are restricted to meeting the operational requirements, and 3) grants and contributors that are restricted to meeting the capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated in the fund financial statements, and reported separately in the supplementary information.

3. Basis of Presentation - Fund Accounting

The accounts of the Village are organized on the basis of funds, which are considered as separate accounting entities. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance/retained earnings, revenues, and expenditures/expenses. The Village's resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the financial statements in this report into generic fund types and broad fund categories as follows:

a. Governmental Fund Types

Governmental funds are those through which most governmental functions of the Village are financed. The Village's expendable financial resources (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is based upon the determination of changes in financial position, rather than upon net income determination. The following are the Village's governmental fund types:

- i. The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund.

NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Basis of Presentation - Fund Accounting (Continued)

a. Governmental Fund Types (Continued)

ii. Special revenue funds are used to account for the proceeds of specific revenue sources (other than debt service or major capital projects) that are legally restricted to expenditures for specified purposes. The Village's special revenue funds are the Motor Fuel Tax Fund, Criminal Investigation Fund, Grant Fund, and the Emergency Telephone System Fund.

iii. Debt service funds are used to account for the accumulation of resources for debt service payments. The Village has two debt service funds, the General Obligation Bonds Fund and the Special Service Area Debt Service Fund.

b. Proprietary Fund Types

Proprietary funds are used to account for the Village's ongoing activities which are similar to those often found in the private sector. The measurement focus is upon determination of net income.

i. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The Water and Sewer Fund is the Village's sole enterprise fund.

c. Fiduciary Fund Types

Fiduciary funds are used to account for assets held by the Village in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

i. Pension trust funds are accounted for in essentially the same manner as proprietary funds, since capital maintenance is critical. The Police Pension Fund is the Village's sole pension trust fund and is audited by other auditors.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Basis of Presentation - Fund Accounting (Continued)

c. Fiduciary Fund Types (Continued)

- ii. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. The Special Service Area Agency Fund is the Village's sole agency fund.

4. New Accounting Pronouncement

The Governmental Accounting Standards Board (GASB) has issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65), which was implemented by the Village during the fiscal year ended April 30, 2014. This Statement established accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in limiting the use of the term deferred in financial statement presentations.

Specific changes to the Village's financial statements relate to the following: unearned and unavailable property taxes. Deferred property taxes are now reported as a deferred inflow of unavailable revenue rather than a liability.

5. Fund Balance

The governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

- a. *Nonspendable* - includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The nonspendable in form criteria includes items that are not expected to be converted to cash such as prepaid items or inventories.
- b. *Restricted* - refers to amounts that are subject to outside restrictions such as creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through enabling legislation. Special revenue funds are by definition restricted for those specified purposes.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Fund Balance (Continued)

- c. *Committed* - refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Village's highest level of decision making authority (the Village Board). The Village Board commits fund balances by passing a resolution. Amounts committed cannot be used for any purpose unless the Village removes or changes the specific use by taking the same type of formal action it employed to previously commit those funds. There were no committed amounts at April 30, 2014.
- d. *Assigned* - refers to amounts that are constrained by the Village's intent to be used for a specific purpose, but are neither restricted or committed. Intent may be expressed by the Board of Trustees or the individual the Village Board delegates the authority to assign amounts to be used for specific purposes. The Village Board has not delegated this authority as of April 30, 2014. There were no assigned amounts at April 30, 2014.
- e. *Unassigned* - refers to all spendable amounts not contained in the other four classifications described above. In funds other than the general fund, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally they act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

6. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are intended to finance. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. A six-month availability period is used for revenue recognition for all other governmental fund revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded when payment is due.

Property taxes, interest revenue, and charges for services revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Village.

The Village reports the following major governmental funds:

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Motor Fuel Tax Fund* accounts for the operation of street maintenance programs and capital projects as authorized by the Illinois Department of Transportation. Financing is provided from the Village's share of state motor fuel taxes.

The *Grant Fund* is a special revenue fund used to account for the use of resources provided by other governmental agencies for specific public works or capital improvement projects.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Village reports the following major proprietary fund:

The *Water and Sewer Fund* accounts for the provision of potable water and sewer services to the residents of the Village. All activities necessary to provide such services are accounted for in this Fund including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Additionally, the Village reports the following fiduciary fund types:

The *Police Pension Trust Fund* accounts for the activities of the accumulation of resources to pay pension costs. Resources are contributed by members at rates fixed by state statutes and by the employer contributions which are based upon actuarial studies and funded through an annual property tax levy.

The *Special Service Area Agency Fund* accounts for the changes in assets and liabilities for the special service area debt payments.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. All taxes are reported as general revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Village reports unearned revenue on its balance sheet. Unearned revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenue also arises when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

7. Cash Equivalents

The Village considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Receivables

The recognition of receivables associated with nonexchange transactions is as follows:

- Derived tax receivables (such as sales, income, and motor fuel taxes) are recognized when the underlying exchange has occurred.
- Imposed nonexchange receivables (such as property taxes and fines) are recognized when an enforceable legal claim has arisen.
- Government mandates or voluntary nonexchange transaction receivables such as grants are recognized when all eligibility requirements have been met.

9. Investments

Investments consist of treasury obligations, state and local obligations, mutual funds, and corporate obligations carried in the pension trust fund. Investments are stated at fair value.

10. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided, services rendered, and for lending/borrowing purposes. These receivables and payables are classified as "due from/to other funds" (the current portion of interfund transactions) or "advance from/to other fund" (the noncurrent portion of interfund transactions) on the fund balance sheets.

Advances between funds are offset by a fund balance reserve in applicable governmental funds to indicate that they are not available for appropriation and are not expendable, available financial resources.

11. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as having a useful life greater than one year with an initial individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

11. Capital Assets (Continued)

The costs of normal maintenance and repairs, including street overlays, that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Years</u>
Buildings	50
Machinery and equipment	3 - 20
Land improvements	20 - 50
Infrastructure	20 - 60

12. Compensated Absences

Accumulated vacation and sick leave that are expected to be liquidated with expendable, available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay them. Accumulated vacation and sick leave that are not expected to be liquidated with expendable, available financial resources are reported as long-term debt on the government-wide statement of net position. Accumulated vacation and sick leave of the proprietary fund is recorded as expenses and liabilities of that fund as the benefits accrue to employees.

13. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net position.

14. Fund Balance and Restrictions of Net Position

Governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose in the fund financial statements.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

14. Fund Balance and Restrictions of Net Position (Continued)

The government-wide statement of net position reports net position restricted by enabling legislation which consist of the following:

<u>Net position restricted for:</u>	<u>Amount</u>
Motor fuel tax	\$ 475,567
Crime investigation	14,650
Public safety - 911 service	88,793
Debt service	<u>769,286</u>
Total net position restricted by enabling legislation	<u>\$ 1,348,296</u>

15. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position

The governmental funds balance sheet includes a reconciliation between fund balance – governmental funds and net position – governmental activities as reported in the government-wide statement of net position.

One element of that reconciliation explains that "Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds." The details of this difference are as follows:

Land	\$ 629,428
Capital assets subject to depreciation	21,036,621
Accumulated depreciation	<u>(7,927,390)</u>
Net total capital assets not reported in governmental funds	<u>\$ 13,738,659</u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position (Continued)

Another element of that reconciliation explains that “Long-term liabilities, including bonds payable, installment notes, interest payable, compensated absences, accrued interest, and net pension obligation, are not due and payable in the current period. Therefore, these liabilities are not reported in the current period and, consequently, are not reported in the governmental funds.” The details of this difference are as follows:

General obligation bonds payable	\$ (3,985,000)
Installment notes	(989,726)
Accrued interest	(66,060)
Note payable	(1,322,189)
Compensated absences payable	(818,609)
Capital lease payable	(151,042)
Other post-employment benefit obligation	(105,687)
Net pension obligation	<u>(1,316,593)</u>
 Net total long-term liabilities not reported in governmental funds	 <u>\$ (8,754,906)</u>

2. Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position - governmental activities as reported in the government-wide statement of activities.

One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this difference are as follows:

Capital outlay	\$ 1,952,577
Depreciation expense	<u>(612,983)</u>
 Net total amount by which capital outlay exceeded depreciation expense	 <u>\$ 1,339,594</u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
(Continued)

2. Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that "The issuance of long-term debt (e.g. bonds, compensated absences) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt, increases in compensated absences, and increases in accrued interest payable consume the current financial resources of governmental funds." The details of this difference are as follows:

Increase in accrued interest	\$ (9,299)
Net decrease in general installment notes	494
Principal payments on general obligation bonds	445,000
Increase in note payable	(1,322,189)
Net increase in net pension obligation	(17,260)
Net increase in other post-employment benefits obligation	(49,586)
Net increase in compensated absences	(11,841)
Net decrease in capital lease obligation	<u>43,314</u>
Net changes in current financial resources	<u>\$ (921,367)</u>

NOTE C - DEPOSITS AND INVESTMENTS

1. Village Deposits and Investments

For disclosure purposes, deposits and investments are segregated into two components: 1) deposits with financial institutions, which include checking, savings, and certificates of deposits and 2) investments as follows:

	<u>Total</u>
Deposits with financial institutions	\$ 1,761,427
Investments	<u>1,881,764</u>
Total cash and cash equivalents	<u>\$ 3,643,191</u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE C - DEPOSITS AND INVESTMENTS

1. Village Deposits and Investments (Continued)

The Village's investment policy is in line with state statutes. The investments that the Village may purchase are limited by Illinois law to the following: (1) securities that are fully guaranteed by the U.S. government as to principal and interest; (2) certain U.S. government agency securities; (3) interest bearing savings accounts, interest-bearing certificates of deposit or time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act; (4) short-term discount obligations of corporations organized in the United States with assets exceeding \$500,000,000; (5) interest bearing bonds of any county, township, city, village, incorporated town, municipal corporation or school district; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds; and (8) money market mutual funds and certain other instruments.

The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in The Illinois Funds are valued at The Illinois Fund's share price, the price for which the investment could be sold.

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security, while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds. The primary objectives of the policy are, in order of priority, safety of principal, liquidity, and rate of return.

Deposits with Financial Institutions

Custodial risk for deposits with financial institutions is the risk that, in the event of bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by a Village-approved independent third party or the Federal Reserve Bank of Chicago in the Village's name. At April 30, 2014, all of the Village's deposits were insured or collateralized. The carrying amount of the Village's deposits with financial institutions was \$1,761,427 at April 30, 2014. The Village's Agency Fund had a carrying value of \$81,982 at April 30, 2014.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

1. Village Deposits and Investments (Continued)

Investments

The following table presents the Village's investments and maturities as of April 30, 2014.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities in Years</u>		
		<u>Less than 1</u>	<u>1 - 5</u>	<u>Greater than 5</u>
The Illinois Funds	\$ <u>1,881,764</u>	\$ <u>1,881,764</u>	\$ <u>-</u>	\$ <u>-</u>

In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short- and long-term cash flow needs, while providing a reasonable rate of return based on the current market.

The Village limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in external investment pools. The Village's investment policy does not discuss credit risk for investments. The Illinois Funds is rated AAAM.

Custodial risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. The Village's investment policy does not discuss custodial credit risk related to investments. The Illinois Funds is not subject to custodial credit risk.

Concentration of credit risk is the risk that the Village has a high percentage of its investments invested in one type of investment. The Village's investment policy does not discuss concentration of credit risk related to investments. At April 30, 2014, the Village did not have greater than five percent of its overall portfolio invested in any single investment type, except for The Illinois Funds.

2. Police Pension Deposits, Investments, and Concentrations

The deposits and investments of the Police Pension Fund (the Pension Fund) are held separately from those of other Village funds.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Police Pension Deposits, Investments, and Concentrations (Continued)

Statutes and the Pension Fund's investment policy authorize the Pension Fund to make deposits or invest in interest-bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures, or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the state of Illinois, to the extent that the deposits are insured by agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by agencies or instrumentalities of the federal government; state of Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund, or by banks, their subsidiaries, or holding companies, in accordance with the laws of the state of Illinois; bonds or tax anticipation warrants of any county, township, or municipal corporation of the state of Illinois; and direct obligations of the State of Israel.

Also authorized are deposits or investments in money market mutual funds managed by investment companies that are registered under the federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; and general accounts of life insurance and separate accounts of life insurance companies. Pension funds with net position of \$2.5 million or more may invest up to forty-five percent of plan net position in separate accounts of life insurance companies and mutual funds. Pension funds with net position of at least \$5 million and that have appointed an investment advisor, may, through that investment advisor, invest up to forty-five percent of the plan's net assets in common and preferred stocks that meet specific restrictions. In addition, pension funds with plan net position of at least \$10 million that have appointed an investment advisor, may invest up to fifty percent of its net plan position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2011 and up to fifty-five percent effective July 1, 2012.

a. Credit Risk, Custodial Credit Risk, and Concentration Risk

Deposits. At year-end, the carrying amount of the Pension Fund's deposits totaled \$89,644, and the related bank balances totaled \$89,644.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Police Pension Deposits, Investments, and Concentrations (Continued)

a. Credit Risk, Custodial Credit Risk, and Concentration Risk (Continued)

Investments. At year-end, the Pension Fund has the following investment maturities:

Investment Type	Fair Value	Investment Maturities in Years			
		Less than 1	1-5	6-10	More than 10
State and Local Obligations	\$ 1,030,775	\$ 228,122	\$ 802,653	\$ -	\$ -
U.S. Govt and Agency Obligations	3,517,252	257,198	1,493,145	1,710,716	56,193
Corporate Obligations	3,293,653	455,469	1,764,015	1,074,169	-
Equity Mutual Funds	8,227,038	8,227,038	-	-	-
TOTAL	\$ 16,068,718	\$ 9,167,827	\$ 4,059,813	\$ 2,784,885	\$ 56,193

The Pension Fund assumes that any callable securities will not be called.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the Pension Fund's investment policy, the Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity, while at the same time matching investment maturities to projected fund liabilities.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Pension Fund helps limit its exposure to credit risk by primarily investing in securities issued by the United States government and/or its agencies that are implicitly guaranteed by the United States government. The Pension Fund's investment policy establishes criteria for allowable investments; those criteria follow the requirements of the Illinois Pension Code. The investments in the securities of the U.S. government agencies and state and local obligations were all rated AAA by Moody's Investors Services. Other than investing in securities issued by agencies of the United States government, the Pension Fund has no other formal policy for reducing credit risk.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Police Pension Deposits, Investments, and Concentrations (Continued)

a. Credit Risk, Custodial Credit Risk, and Concentration Risk (Continued)

Custodial Credit Risk - Deposits. In the case of deposits, this is the risk that, in the event of a bank failure, the Pension Fund's deposits may not be returned to it. At April 30, 2014, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Pension Fund's investment policy does not require pledging of collateral for all bank balances in excess of federal depository insurance, since flow-through FDIC insurance is available for the Pension Fund's deposits with financial institutions.

Custodial Credit Risk - Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the Pension Fund will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Illinois Funds, money market mutual funds, and equity mutual funds are not subject to custodial credit risk. At April 30, 2014, the U.S. government agencies and the state and local obligations are held by the counterparty in the trust department. The Pension Fund does not have a formal written policy with regard to custodial credit risk for investments.

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the Pension Fund's investment in a single issuer. The Pension Fund does not have a formal written policy regarding concentration of credit risk for investments. At April 30, 2014, the Pension Fund has over 5% of its net plan assets invested in various agency securities, as indicated in the table above. Agency investments represent a large portion of the portfolio; however, the investments are diversified by maturity date, and, as mentioned earlier, are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U. S. government. They are considered to have a moral obligation of implicit backing and are supported by U.S. Treasury lines of credit and increasingly stringent federal regulations.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Police Pension Deposits, Investments, and Concentrations (Continued)

a. Credit Risk, Custodial Credit Risk, and Concentration Risk (Continued)

The Pension Fund has diversified the equity mutual fund holdings as follows:

<u>Equity Mutual Funds</u>	<u>Fair Value</u>
American Beacon Large Cap Fund	\$ 1,598,897
Consumer Discretionary Select SPDR	34,984
DWS RREEF Gloabal Infrastructure	196,177

Oppenheimer Developing MKT	312,715
RS Global Natural Resources	346,994
Scout International Fund	767,751
Sector SPDR Trust Consumer Staples	39,905
Sector SPDR Trust Health Care	63,235
T. Rowe Price Mid-Cap Growth	202,058
TWC Select Equities Fund	2,020,660
Undiscovered Mngrs Behavioral Values	240,195
Total equity mutual funds	<u>\$ 8,227,038</u>

NOTE D - PROPERTY TAXES

Property taxes for 2013 tax year attach as an enforceable lien on January 1, 2013 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a tax levy ordinance). Tax bills are prepared by the County and are payable in two installments, on or about March 1, 2014 and September 1, 2014. The County collects such taxes and remits them periodically. The portion of the 2013 property tax levy not received by April 30 is recorded as a receivable, net of the allowance for uncollectibles of \$3,000. The net receivable collected within the current year is recognized as revenue. Because the remaining uncollected amount is intended to finance the fiscal year ended April 30, 2015, net taxes receivable is reflected as unavailable revenue. The 2014 levy, which attached as an enforceable lien on property as of January 1, 2014, has not been recorded as a receivable as of April 30, 2014, as the tax has not yet been levied by the Village and will not be levied until December 2014; therefore, the levy is not measurable at April 30, 2014.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE G - RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; natural disasters; employee health; and injuries to the Village's employees. In order to protect against these risks, the Village is a member of the Illinois Municipal League Risk Management Agency (IMLRMA). IMLRMA is a joint risk management pool of numerous cities and villages throughout the state of Illinois through which property, general liability, automobile liability, crime, boiler and machinery, and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. In addition, the Village provides health insurance to its employees through a third-party indemnity policy. The Village pays a monthly premium to the insurance agency for its coverage. Settled claims have not exceeded the coverages in the current or preceding two fiscal years.

NOTE H - LONG-TERM LIABILITIES

1. Changes in Long-Term Liabilities

The following is a summary of the Village's long-term liability balances and transactions for the year ended April 30, 2014:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>

NOTE H- LONG-TERM LIABILITIES (Continued)

2. Long-Term Debt - Terms and Maturities (Continued)

The annual requirements to retire the general obligation bonds and installment note outstanding as of April 30, 2014 are as follows:

Year Ending April 30,	General Obligation Bonds Payable			Installment Notes	
	Principal	Interest	Total	Principal	Interest
2015	\$ 465,000	\$ 154,338	\$ 619,338	\$ 989,726	\$ 39,589
2016	485,000	137,468	622,468	-	-
2017	510,000	119,678	629,678	-	-
2018	530,000	100,883	630,883	-	-
2019	550,000	81,360	631,360	-	-
2020-2024	985,000	225,430	1,210,430	-	-
2025-2026	460,000	29,538	489,538	-	-
	<u>\$ 3,985,000</u>	<u>\$ 848,695</u>	<u>\$ 4,833,695</u>	<u>\$ 989,726</u>	<u>\$ 39,589</u>

3. Capital Lease Obligations

At April 30, 2014, the Village is obligated for future payments under a noncancellable leases for vehicles, public works equipment and a security system as follows:

Year Ending April 30,	Capital Lease Governmental Activities	
	Principal	Interest
2015	\$ 89,800	\$ 4,446
2016	16,691	2,147
2017	17,325	1,514
2018	17,982	856
2019	9,244	174
	<u>\$ 151,042</u>	<u>\$ 9,137</u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE H- LONG-TERM LIABILITIES (Continued)

3. **Capital Lease Obligations** (Continued)

The cost of the capital assets acquired through capital lease is \$432,915, with accumulated depreciation and depreciation expense of \$62,940 and \$241,252, respectively, at April 30, 2014.

4. **Note Payable**

In fiscal year 2014, the Village entered into a note payable due to the Illinois Department of Transportation, related to a road construction grant for a project completed in 2008. The note is payable in ten equal annual installments, commencing in fiscal year 2015, and does not bear interest.

5. **Legal Debt Margin**

The Village is a home rule municipality.

Chapter 6, Section 518-1 of the Illinois Compiled Statutes governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and required referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property. . . (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: if its indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum . . . shall not be included in the foregoing percentage amounts."

To date, the Illinois General Assembly has set no limits for home rule municipalities.

NOTE I - DEFINED BENEFIT PENSION PLANS

1. **Illinois Municipal Retirement Fund**

a. **Plan Description**

The Village's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The Village plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent, multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

1. Illinois Municipal Retirement Fund (Continued)

b. Funding Policy

As set by state statute, the Village's regular plan members are required to contribute 4.5 percent of their annual covered salary. The statute requires the Village to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for calendar year 2013 was 11.17 percent of annual covered payroll. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by state statute.

c. Annual Pension Cost

For calendar year 2013, the Village's annual pension cost of \$125,431 for the regular plan was equal to the Village's required and actual contributions.

Trend Information				
Actuarial Valuation Date	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation	
12/31/13	\$ 125,431	100%	\$	-
12/31/12	124,284	100%		-
12/31/11	113,078	100%		-

The required contribution for 2013 was determined as part of the December 31, 2011 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2011 included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4 percent a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4 percent to 10 percent per year depending on age and service, attributable to seniority/merit, and (d) postretirement benefit increases of 3 percent annually. The actuarial value of the Village's regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20 percent corridor between the actuarial and market value of assets. The Village's regular plan's unfunded actuarial accrued liability at December 31, 2011 is being amortized as a level percentage of projected payroll on an open 30-year basis.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

1. Illinois Municipal Retirement Fund (Continued)

d. Funded Status and Funding Progress

As of December 31, 2013, the most recent actuarial valuation date, the regular plan was 89.93 percent funded. The actuarial accrued liability for benefits was \$3,130,242 and the actuarial value of assets was \$2,815,083, resulting in underfunded actuarial accrued liability (UAAL) of \$315,159. The covered payroll (annual payroll of active employees covered by the plan) was \$1,122,924 and the ratio of the UAAL to the covered payroll was 28 percent.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

2. Police Pension Plan

a. Plan Description

The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. The Police Pension Plan provides retirement, disability, and death benefits, as well as automatic annual cost of living adjustments, to plan members and their beneficiaries. Plan members are required to contribute 9.91% of their annual covered payroll. The Village is required to contribute at an actuarially determined rate. Although this is a single-employer pension plan, the defined benefits and contribution requirements of the plan members and the Village are governed by Illinois State Statutes and may only be amended by the Illinois legislature. Administrative costs are financed through investment earnings.

At April 30, 2013, the date of the latest actuarial valuation, the Police Pension Plan membership consisted of the following:

Retirees and beneficiaries currently receiving benefits	18
Active plan members	<u>24</u>
Total plan membership	<u><u>42</u></u>

The following is a summary of the Police Pension Plan as provided in Illinois State Statutes:

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

2. Police Pension Plan (Continued)

a. Plan Description (Continued)

The Police Pension Plan provides retirement benefits, as well as death and disability benefits. Covered employees hired before January 1, 2011, attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last date, whichever is greater.

The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75% of such salary. Covered employees hired on or after January 1, 2011, attaining the age of 55 with at least 10 years of creditable service are entitled to receive an annual retirement benefit of 2.5% of final average salary for each year of service, with a maximum salary cap of \$106,800 as of January 1, 2011. The maximum salary cap increases each year thereafter. The monthly benefit of a police officer hired before January 1, 2011, who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement, and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter. The monthly pension of a police officer hired on or after January 1, 2011, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 60, but the lesser of 3% or 1/2 of the consumer price index. Employees with at least 10 years but less than 20 years of creditable service may retire at or after age 60 and receive a reduced benefit.

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan, including administrative costs, as actuarially determined by an enrolled actuary. By the year 2040, the Village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

2. Police Pension Plan (Continued)

b. Summary of Significant Accounting Policies and Plan Asset Matters

i. Reporting Entity

The Police Pension Fund is a component unit of the Village of Harwood Heights, Illinois. The decision to include the Police Pension Fund in the Village's reporting entity was made based upon the significance of the operational or financial relationship with the Village.

The Village's police employees participate in the Police Pension Employees' Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's Mayor, one elected pension beneficiary, and two elected police employees constitute the pension board. The Village and PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The state of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. The PPERS is included in the Village's annual financial report as a blended component unit and is reported as a pension trust fund.

The Village's police pension plan issues its own financial report and required supplementary information. That report may be obtained by writing to the Village of Harwood Heights, 7300 W. Wilson, Harwood Heights, Illinois 60706.

ii. Basis of Presentation

Pension trust funds are used to account for assets held in a trustee capacity for pension benefit payments. The Police Pension Fund accounts for the accumulation of resources to pay retirement and other related benefits for sworn members of the Village's Police Department.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

2. Police Pension Plan (Continued)

b. Summary of Significant Accounting Policies and Plan Asset Matters (Continued)

iii. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe which transactions are recorded. *Basis of accounting* refers to when transactions are recorded, regardless of the measurement focus applied.

Measurement focus. Pension trust funds utilize an economic resources measurement focus. The accounting objectives of this measurement focus are the determination of changes in net assets. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Pension trust fund equity is classified as net assets.

Basis of Accounting. The accrual basis of accounting is utilized by pension trust funds. Under this method, additions to net plan assets are recorded when earned and deductions from net plan assets are recorded when the time-related liabilities are incurred. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

iv. Investments

Police Pension Fund investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have an established market, if any, are reported at estimated fair value.

v. Short-term Interfund Receivables and Payables

Police Pension Fund receivables consist of all revenues earned at year-end and not yet received. The major receivable balances for the Police Pension Fund is accrued interest from cash and investments.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

2. Police Pension Plan (Continued)

c. Funding Policy and Annual Pension Cost

The Village's payroll for employees covered by the Police Pension Plan for the year ended April 30, 2014 was \$1,768,739 out of a total payroll of \$3,902,186

For the year ended April 30, 2014, the Village's annual pension cost was \$552,650. Actual contributions made by the Village were \$626,343. The information presented was determined as part of the actuarial valuation as of April 30, 2013, the most recent actuarial information available.

Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry age normal; the amortization method was level percent of pay, closed, and the amortization period was 30 years; the asset valuation method was a market value method; and the significant actuarial assumptions were an investment rate of return at 7.5%, compounded annually which includes a 2.5% inflation factor, a projected salary increase assumption range of 1.1% through 4.9% compounded annually, which includes a 2.5% inflation factor, and cost-of-living adjustments of 4.5%, compounded annually.

The Village's annual pension cost and net pension obligation to the Police Pension Fund were obtained from the fund's most recent actuarial valuation (April 30, 2013) and are as follows:

Annual required contribution	\$ 552,650
Interest on net pension obligation	<u>90,953</u>
Annual pension cost	643,603
Contributions made	<u>(626,343)</u>
Increase in net pension obligation	17,260
Net pension obligation as of May 1, 2013	<u>1,299,333</u>
Net pension obligation as of April 30, 2014	<u><u>\$ 1,316,593</u></u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE I - DEFINED BENEFIT PENSION PLANS (Continued)

2. Police Pension Plan (Continued)

d. Three-Year Trend Information

<u>Year Ending</u>		<u>Annual Required Contribution</u>	<u>Percentage of APC Contributed</u>		<u>Net Pension Obligation</u>
4/30/14	\$	552,650	113.33%	\$	1,316,593
4/30/13		582,108	77.29%		1,299,333
4/30/12		576,467	80.78%		1,147,569

e. Compliance Audit

The Police Pension Fund is subject to a program compliance audit by the Illinois Department of Insurance. The compliance audit by the Illinois Department of Insurance for the year ended April 30, 2014 has not yet been conducted. Accordingly, the Police Pension Fund's compliance with applicable requirements will be established at some future date. The amount of any adjustments to be made by the Illinois Department of Insurance cannot be determined at this time. However, the Police Pension Fund expects such adjustments, if any, to be immaterial.

NOTE J - OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The Village administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides the ability for retirees and their spouses to access the Village's group health insurance plan during retirement, provided they are on the group health insurance plan at the time of retirement, until the age of 65. Retirees may be responsible to contribute a portion of the premium toward the cost of their insurance. Retirees may also access dental benefits on a "direct pay" basis. For 2014, a total of 2 former employees or spouses accessed a postemployment benefit through the Village.

Funding Policy

Retirees have the option of choosing from an HMO or PPO plan through the Village. The Village contributes a percentage of the health insurance premium in accordance with applicable board policy in force at the time of retirement. For fiscal year 2014, the Village contributed \$28,969 toward the cost of the postemployment benefits for retirees.

Village of Harwood Heights, Illinois

NOTES TO FINANCIAL STATEMENTS

April 30, 2014

NOTE J - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Annual OPEB Cost and Net OPEB Obligation

The Village's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Village's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Village's net OPEB obligation to the Retiree Health Plan:

	April 30, 2014
Annual required contribution	\$ 75,750
Interest on net OPEB obligation	2,805
Adjustment to annual required contribution	<u>-</u>
Annual OPEB cost	78,555
Contributions made	<u>(28,969)</u>
Increase in net OPEB obligation	49,586
Net OPEB obligation beginning of year	<u>56,101</u>
Net OPEB obligation end of year	\$ <u><u>105,687</u></u>

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE J - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Annual OPEB Cost and Net OPEB Obligation

The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2014 and the two preceding fiscal years were as follows:

<u>Actuarial Valuation Date</u>	<u>Annual OPEB Cost</u>	<u>Percentage Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
4/30/14	\$ 78,555	36.9%	\$ 105,687
4/30/13	75,637	38.3%	56,101
4/30/12	18,923	81.4%	9,433

Funding Status and Funding Progress

As of April 30, 2013, the actuarial accrued liability for benefits was \$649,573. The covered payroll (annual payroll of active employees covered by the plan) was \$2,712,495, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 23.9%.

The projection of future benefit payments for an ongoing plan involved estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE J - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Contribution rates:	
Village	N/A
Plan members	100%
Actuarial valuation date	04/30/2013
Actuarial cost method	Entry age
Amortization period	Level percentage of pay, open
Remaining amortization period	30 years
Asset valuation method	Market
Actuarial assumptions:	
Investment rate of return*	5.00%
Projected salary increases	3.50%
Healthcare inflation rate	9.00% initial 5.00% ultimate
Mortality, Turnover, Disability, Retirement Ages	RP-2000 Combined Table for Males and Females; Revenue ruling 96-7
Percentage of active employees assumed to elect benefit	20%

NOTE K - CONTINGENCIES AND COMMITMENTS

1. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the state of Illinois. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures which may be disallowed by the grantor cannot be determined at this time, although the Village expects such amounts, if any, to be immaterial.

2. Litigation

The Village has pending legal proceedings that, in the opinion of management, are ordinary routine matters incidental to the normal business conducted by the Village. In the opinion of management, the outcome is neither probable nor estimable, and the ultimate dispositions of such proceedings are not expected to have a material adverse effect on the Village's net position or activities.

NOTE L - PLEDGED REVENUE

In April 2012, the Village entered into an agreement with a business developer related to land to be developed in the Village. Under the agreement, the Village agreed to reimburse the developer up to \$3,850,000 of the costs to develop the land, to be paid over a period of 40 years. The Village will make the reimbursement payments from 50% of the sales tax revenue generated from the business developed on the land. The monthly payments commenced in May 2013. Each monthly payment will be applied first to interest at the prime rate plus 2.25%, with any remaining amount applied to the \$3,850,000 principal. The Village's pledge is limited to 50% of the related sales tax revenue, and the obligation will terminate at the end of the 40 year period, regardless of whether a principal balance remains. During fiscal year 2014, total reimbursement payments were \$288,074.

Village of Harwood Heights, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2014

NOTE M - SUBSEQUENT EVENTS

Management has evaluated subsequent events through January 12, 2015, the date that these financial statements were available to be issued. Management has determined that no events or transactions, other than the items described further below, have occurred subsequent to the statement of net position date that require disclosure in the financial statements.

1. Land Held for Resale

In June 2014, the Village entered into a purchase and sale agreement with a third party to sell the land held for resale at a purchase price of \$950,000. As of the date of this report, the sale has not been consummated.

2. Promissory Note

The promissory note which had a balance of \$989,726 outstanding at April 30, 2014 (see Note H), was paid in full in June 2014. In July 2014, the Village entered into a line of credit agreement with the same financial institution, with available borrowings of up to \$1,000,000. The agreement matures in July 2015.

3. General Obligation Bonds

In October 2014, the Board of Trustees approved an ordinance by issue General Obligation Bonds, Series 2014 in an amount not to exceed \$4,100,000. It is the Village's intent to refinance the existing Series 2003 and Series 2006B general obligation bonds with the Series 2014 bonds. As of the date of this report, the bonds have not been issued.

Village of Harwood Heights, Illinois
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
April 30, 2014

NOTE A - BUDGETARY DATA

The Village prepares its appropriation ordinance in accordance with generally accepted accounting principles. Annual appropriated budgets are adopted for the General Fund, Motor Fuel Tax Fund, Emergency Telephone System Fund, General Obligation Bonds Funds, Special Service Area Debt Service Fund, Grant Fund, and the Water and Sewer Fund. The Village does not prepare a budget for the Criminal Investigation Fund. The annual appropriations lapse at fiscal year-end. There were no amendments to the fiscal year 2014 appropriations.

1. Within ninety days of the start of the fiscal year, the annual appropriation ordinance is presented for adoption by the Village Board. This ordinance appropriates such sums of money as are deemed necessary to defray all necessary expenses and liabilities of the Village. The ordinance also specifies the objects and purposes for which these appropriations are made and the amount appropriated for each.
2. Prior to the adoption of the appropriation ordinance, the Village makes the proposed ordinance conveniently available to public inspection and holds at least one public hearing subsequent to published notice.
3. Subsequent to the public hearing and before final action is taken on the appropriation ordinance, the Village Board may revise, alter, increase, or decrease the items contained therein.
4. Final action to adopt the appropriation for the year ended April 30, 2014 is taken by the Village Board before July 31, 2013. The budget amounts shown in the financial statements are as originally adopted by the Village Board on July 25, 2013.
5. The Board may subsequently transfer appropriated amounts to other appropriations, but may not increase overall appropriation of an individual fund without the passage of a supplemental appropriation.
6. The legal level of budgetary control is at the fund level.

NOTE B - EXPENDITURES IN EXCESS OF BUDGET

The following funds had expenditures in excess of budget for the year ended April 30, 2014:

Fund	Variance

Nonmajor Governmental Funds

The Emergency Telephone System Fund is a special revenue fund and is used to account for the use of revenues provided by network connection surcharges and state grants specifically collected for 911 emergency telephone services.

The Criminal Investigation Fund is a special revenue fund and is used to account for the use of resources specifically designated for police department investigations dealing with illegal drug and narcotic trafficking. Revenues are generally derived from seized monies and property.

The Special Service Area (SSA) Debt Service Fund is a debt service fund used to account for the resources accumulated and payments made for principal and interest on long-term special service area debt.

The General Obligation Bonds Fund is a debt service fund and is used to account for the debt service payments required by the \$3,500,000 Series 2003 general obligation bonds, the \$490,000 Series 2006A general obligation bonds, and the \$2,510,000 Series 2006B general obligation bonds.
